M-Strain *Cannabis sativa* L. varieties

The Medropharm AG offers a selection of registered *Cannabis sativa* L. varieties, called the „M-Strains“. Each offering a unique terpenic profile and ratio of total-CBD-, total-THC- and CBG-content. With years of experience we can advise you on the best selection for your application.

Pharmaceutical grade (ph. Grade) products

M-Strain tinctures and extracts

Art.	Name	CBD-content*	THC-content*	CBD/THC ratio**
008052	M-1661 CBD Tincture 5% in MCT, Ph.	5	< 0.2	30:1
015052	M-1337 CBD Tincture 5% in MCT, Ph.	5	< 0.2	30:1
025052	M-1771 THC Tincture 0.9% in MCT, Ph.	ca. 8	0.9	8:1
202152	M-1881 CBG Tincture 5% in MCT, Ph.	N.A.	< 0.05	N.A.

All pharmaceutical grade extracts are available in bulk or as finished product; or as extractum spissum; M-1661 also as extractum siccum (dry extract in powder form). Please get in contact, if you want to know more.

Isolate

Art.	Name	CBD-content*	THC-content*
002052	(-)-trans-Cannabidiol, Ph.	> 98 %	< 0.01

The products are manufactured, handled, and stored according with current Good Manufacturing Practices (cGMP) and as outlined in the International Conference on Harmonization “ICH Q7 guideline on Good Manufacturing Practice for Active Pharmaceutical Ingredients”.

Analyses for the release process are performed in accordance with the European Pharmacopoeia (Ph. Eur.) as well as cGMP by qualified external partners.
